Indus Arts Council
Curriculum (Spring 2022)
Making Urdu learning Fun

The fall semester curriculum will be based on the theme “Me and My World.” This theme has been chosen because of its strong potential for designing a meaningful curriculum that integrates Pakistani traditions with language learning and cultural goals.

Students will hear simple stories from illustrated story books in Urdu language and watch videos of various animated stories, and videos about desi families, all based on everyday life, family, friends, fruits and animals.

The Urdu language vocabulary is imparted to the students using different online media. This includes PowerPoints, Online Flashcards, Authentic videos and interactive online games. The online games that students play help them reinforce the vocabulary and learn sentence structures.

At the end of the semester, students will be able to develop a short story about their likes and dislikes, about what food, season, animal they like or don’t like.

Final Assessment Task:
Students will use language construction, forming short paragraphs, they will create stories by pretending to be characters in various settings.
